

## Press Release

---

### NetConnect Germany relaunches its VTP portal

**Ratingen (Germany), 12 August 2019.** Over the last few months, NetConnect Germany GmbH & Co. KG (NCG) has overhauled its Virtual Trading Point (VTP) portal to enhance its transparency and user-friendliness. The new VTP portal is now available to users.

In addition to improved displays for nomination and a clearer presentation of the matching status, the new portal has a responsive design for optimised presentation on mobile devices. "This means that we have again incorporated suggestions received as part of our VTP market consultation. We hope that this will simplify the usability of the VTP portal and further increase the attractiveness and liquidity of the VTP," says Torsten Frank, member of NCG's management board.

**NetConnect Germany** handles the operational management of the market area cooperation between bayernets GmbH, Fluxys TENP GmbH, Thyssengas GmbH, Open Grid Europe GmbH, GRTgaz Deutschland GmbH and terranets bw GmbH. Its gas market area, which stretches from the North Sea coast down to the Alps, is the largest German market area, with around two thirds of all end-user gas volumes in Germany being transported via the NCG market area.
