From 1 October 2016 the charge for usage of the GASPOOL Hub, the virtual trading point (VTP) of the GASPOOL market area will set to 0.1528 cents/MWh.

[Vorschau](#)

The gas quality conversion fee for the conversion from high calorific value quality ("high CV gas") to low calorific value quality ("low CV gas") will initially be retained until April 2017 and charged at 0.441 EUR/MWh in line with the applicable fee cap approved by the regulator. Again, no conversion neutrality charge will be levied.
