

Deviations target model market area GASPOOL

In exceptional and justified cases the market area manager may depart from the merit order required under the administrative ruling on gas balancing issued by the German federal regulator Bundesnetzagentur ("Gabi Gas 2.0") when taking system balancing actions. Any and all such deviations are published here for reasons of transparency.

Datum	Abweichungsrang	Ersatzrang	Hintergrund
24/09/2021	MOL 2	MOL 2	3
28/01/2021	MOL 4	MOL 4	6
09/12/2020	MOL 2	MOL 2	6

Possible reasons for deviations

1. Amounts cannot be procured on the stock exchange
 - a. Stock exchange is unavailable
 - b. On the stock exchange there are no quotations/orders placed individually are not drawn (illiquidity)
2. Technical problems
3. Operational problems (human failure)
4. Time problems
5. Faults/construction sites on the gas distribution network
6. Test call order
