Security Platform Gas

Agenda

Security Platform Gas (SiPla)

- a) Registration of balancing group managers on SiPla
- b) Data entry on SiPla
- c) 24/7 availability & notifications to balancing group managers
- d) Data provision by the network operators on the market location and its presentation in the SiPla view of the balancing group managers
- e) RLM consumption data transfer
- f) Update on Security Platform Gas figures

Registration of balancing group managers

Trading Hub Europe

Compulsory registration

- Section 1a (2) of the Ordinance to Ensure the Supply of Gas in a Supply Crisis (GasSV):

Balancing group managers pursuant to Section 2 (5) of the Gas Network Access Ordinance and end users, operators of gas storage facilities pursuant to Section 3 (6) of the Energy Industry Act and the users of gas storage facilities as well as the operators of gas transmission networks (gas TSOs) and the operators of gas distribution networks (gas DSOs) in the market area of the market area manager (platform participants) are obliged to register on the platform within one month of it becoming available. End users within the meaning of this Ordinance are connection users of market locations with a technical connection capacity of at least 10 megawatt-hours per hour.

Registration cases

Final consumer

- User wants to register their organisation as a new final consumer*.
- User wants to register for a user account for an final consumer already registered on the Security Platform Gas

Balancing group manager

Balancing group managers (organisations) must have already been approved as market partners in THE's Customer Portal before users can register for the Security Platform Gas.

There are two different use cases:

- User does **not have** access to THE's Customer Portal
- User **already has** access to THE's Customer Portal

Network operator

Distribution system operators currently do not have access to the Security Platform Gas and therefore do not have to register (this is planned for 2023).

Amendment of the GasSV: storage users and storage operators must register

* Final consumer: Industrial/commercial connection user with technical connection capacity ≥ 10 MWh/h

General

The link to the Security Platform Gas can be found on THE's website under Portals (www.sicherheitsplattform-gas.de).

A click on the link will open the login page of the Security Platform Gas.

Here you can:

- 1 Log in
- 2 Reset your password,
- 3 Start the registration for the Security Platform Gas.

Welcome!

Welcome to the Security Platform Gas.

The market area manager Trading Hub Europe provides a digital platform – the Security Platform Gas – for the execution of measures according to section 1a (1) "Gassicherungsverordnung" and for the execution of solidarity measures according to section 2a "Energiesicherungsverordnung".

The data to be provided by the market participants on the Security Platform Gas is important information for decisions by the Federal Network Agency as the Federal Load Distributor in the event of a gas emergency. The data basis supports the Federal Load Distributor in particular in the decision on necessary load reductions in the event of a gas crisis.

The balancing group managers and end customers according to section 1a (2) "Gassicherungsverordnung" in the market area Trading Hub Europe are obliged to register on the Security Platform Gas.

You will get access to the Security Platform Gas after successful registration.

Contact: service@tradinghub.eu

Registration of balancing group managers (users) (1/3)

To register a user of an already registered balancing group manager for the Security Platform Gas, click on the "Registration" button here too to start the registration process.

You don't have an account?

Start the registration process here:

Registration

Select the role "balancing group manager" and select

"I wish to apply for user access to the Security Platform Gas and do **not have access** to THE's Customer Portal" or

"I wish to apply for user access to the Security Platform Gas and **already have user access** to THE's Customer Portal"

← Home

Role / Application type

Role *:

☒ Balancing group manager

☐ Final consumer with a technical connection capacity ≥ 10 MWh/h (hereinafter "Final consumer") *

Application type *:

☐ I would like to apply for a user account on the Security Platform Gas and do not have a user account for the Customer Portal of THE

☐ I would like to apply for a user account on the Security Platform Gas and already have a user account for the Customer Portal of THE

Registration of balancing group managers (users) (2/3)

If you do not have access to THE's Customer Portal, enter the name of your organisation and all other details in the online registration form. You will then be taken to your personal user data.

The screenshot displays the 'Security Platform Gas' registration interface. The top navigation bar includes the THE logo, 'TRADING HUB EUROPE', and the Bundesnetzagentur logo. The main heading is 'Security Platform Gas Registration'. The form is divided into two main sections: 'Registration' and 'Personal user data'.

Registration Section:

- Role *:** Radio buttons for 'Balancing group manager' (selected), 'Final consumer with a technical connection capacity ≥ 10 MWh/h (hereinafter "final consumer") *', and 'I would like to apply for a user account on the Security Platform Gas and do not have a user account for the Customer Portal of THE'.
- Application type *:** Radio buttons for 'I would like to apply for a user account on the Security Platform Gas and already have a user account for the Customer Portal of THE' and 'I would like to apply for a user account on the Security Platform Gas and do not have a user account for the Customer Portal of THE'.
- Company name *:** Text input field.
- Service providers *:** Radio buttons for 'I am an employee of the above company' and 'I am a service provider acting on behalf of the above company'.
- Market partner code *:** Section with 'DVGW code' and 'GLN code' input fields.

Personal user data Section:

- Email *:** Text input field.
- Title:** Dropdown menu with 'No title' selected.
- First name *:** Text input field.
- Last name *:** Text input field.
- Salutation *:** Radio buttons for 'Mr', 'Ms', and 'Divers'.
- Language *:** Dropdown menu.
- Phone *:** Text input field with a country code dropdown.
- Mobile:** Text input field with a country code dropdown.
- Fax *:** Text input field with a country code dropdown.

Footer:

- Back:** Button at the bottom left.
- Next:** Button at the bottom right.
- Register:** Button at the bottom right.

After having completed the registration form completely and correctly, you will receive an e-mail confirming receipt of your registration application.

Registration of balancing group managers (users) (3/3)

If you already have access to THE's Customer Portal, select the type of application. You will then be taken to THE's website, where the registration form for using the Security Platform Gas is available for download.

Security Platform Gas

Registration

Role / Application type

Role *:

☒ Balancing group manager

☐ Final consumer with a technical connection capacity ≥ 10 MWh/h (hereinafter "Final consumer") *

Application type *:

☐ I would like to apply for a user account on the Security Platform Gas and do not have a user account for the Customer Portal of THE

☒ I would like to apply for a user account on the Security Platform Gas and already have a user account for the Customer Portal of THE

* Companies without an own market location can also register under the role "final consumer" in case these companies are supplied with natural gas as a third-party company within the market location via the connection of a final consumer who is already registered on the Security Platform Gas. This applies regardless of the amount of the share in the total connection capacity of the already registered final consumer that is assigned to the company which is supplied with natural gas as a third-party company.

Registration for the Security Platform Gas

Thank you for your registration request for the Security Platform Gas.

If you already have access to the Customer Portal of THE, you can use the same login data – after the extension of the user permissions - for the Security Platform Gas.

In order to get access to the Security Platform Gas, we would kindly ask you to provide us with the signed "Market participant's power of attorney for the user (User right for the Security Platform Gas)". The form must be signed by an authorized representative who is indicated as such in your company register record. If the form is signed by a person who is not a registered authorized representative, please enclose a power of attorney that has been granted by an authorized representative and that authorizes the person signing the form to sign on your behalf.

In case we don't have a current excerpt of your company register record as well as copies of a valid ID of the authorized representatives, we kindly ask you to enclose them as well.

Please send the documents by email to service@tradinghub.eu or by letter to the following address:

Trading Hub Europe GmbH

Anna-Louisa-Karsch-Straße 2
10178 Berlin
Germany

For a quick registration process, we kindly ask you to send all required documents within 14 days.

Your access will be activated once we have successfully reviewed your admission documents. You will receive a confirmation afterwards by email.

Enter details of 24/7 contact for the Security Platform Gas and keep details up to date to ensure person can be reached in an emergency

Notifications are emailed to the 24/7 contact person for the Security Platform Gas

Information on instruction to maintain gas entry flow into BG is emailed to the 24/7 contact person for the Security Platform Gas

Where? In the company master data of THE's Customer Portal

Notification sender address:
noreply@sicherheitsplattform-gas.de

Sender address of the notification:
bundeslastverteiler-gas@bnetza.de

Case: National gas shortage

*Subject: Preparation of measures to maintain gas supply:
Request for data update on Security Platform Gas
Dear Sir or Madam,
Since [DD.MM.YYYY], the regulations regarding the third escalation stage – the so-called emergency stage – of the Gas Emergency Plan have been in force in Germany. The emergency stage makes intervention in the energy market indispensable. In this context, the federal load distributor has launched an initiative for [DD.MM.YYYY]. On said day, measures may be necessary to ensure the supply of gas to protected customers in Germany.
The company [BGM company] is registered on the Security Platform Gas as the balancing group manager.
Pursuant to Section 1a (6) sentence 3 of the Ordinance to Ensure the Supply of Gas in a Supply Crisis (GasSV) in conjunction with Section 10 (1) EnSiG, you are obliged to update the data if necessary. You are therefore kindly asked to update the data if there have been any changes.
To update the data, please log onto the Security Platform Gas using the following link : www.sicherheitsplattform-gas.de
Please also ensure that the "24/7 contact for the Security Platform Gas" registered for your company in THE's Customer Portal can be reached at all times using the contact details provided.*

Case: Non-market-based solidarity request from a Member State

*Subject: Preparation of measures to maintain gas supply:
Request for data update on the Security Platform Gas
Dear Sir or Madam,
The company [BGM company] is registered on the Security Platform Gas as the balancing group manager.
Pursuant to Section 1a (6) sentence 3 GasSV in conjunction with. § Section 10 (1) EnSiG, you are obliged to adjust the data if necessary. You are therefore kindly asked to update the data if there have been any changes.
To update the data, please log onto the Security Platform Gas using the following link: www.sicherheitsplattform-gas.de
Please also ensure that the "24/7 Contact for the Security Platform Gas" registered for your company in THE's Customer Portal can be reached at all times using the contact details provided.*

Subject: Order to maintain entries

*Dear Sir or Madam and Gentlemen,
Since [DD.MM.YYYY], the regulations regarding the third escalation stage – the so-called emergency stage – of the Gas Emergency Plan have been in force in Germany. The emergency stage makes intervention in the energy market indispensable. You are also affected: The attached instruction is hereby brought to your attention.
For further information on rulings by the Federal Network Agency please go to our website.
If you have any further questions about the instruction issued, please feel free to contact us by e-mail at any time.
Please note that the instruction must be implemented for the entire period of validity.
This also applies in the event that queries have not yet been answered.*

Provision of data by the network operators on the market location and its presentation to the BGMs

Trading Hub Europe

Provision of data on market location

- Pursuant to Section 1a (4) GasSV, TSOs and DSOs are obliged to notify the MAM about the allocation of end users (MaLo ID) pursuant to Section 1a (2) GasSV to the balancing groups (BGs) / subordinate balancing groups (SBGs) and to the network balancing accounts within one month after provision of the Security Platform Gas as of 01.10.2022.
- ⇒ **Important:** After the first notification the data must be updated immediately as soon as there is any change.
- For this purpose, Trading Hub Europe offers a file upload in THE Customer Portal for data transfer.
- A file template and instructions are provided for the upload.

RLM consumption data transfer

Trading Hub Europe

RLM consumption data transfer to THE

- The federal load distributor requires load profile values of the end users to
 - determine the reduction potential
 - examine the effect of individual instructions
- Since 15 December 2022: Daily transfer of load profile values and transfer of historical data for the period from 01.02.2018 via MSCONS to THE

- **New:** From 1 October 2023 at the latest: monthly transfer (M+12WT) of the load profiles based on the declared gross calorific value

Current figures on the Security Platform Gas

Trading Hub Europe

Update on Security Platform Gas figures

Registered end users with a technical connection capacity ≥ 10 MWh/h	1,683 companies (some companies still in registration process)
Registered balancing group managers (BGMs)	<ul style="list-style-type: none"> 527 companies already registered on SiPla (some companies still in registration process) A total of 629 companies have registered with THE
Number of registered users granted access	2,127 users registered for end users 777 users registered for BGMs (one organisation can register several users)
Data entries by end users on MaLo IDs	Data entries for 2,740 registered MaLo IDs (of which the data for 968 MaLo IDs is still incomplete)
End users allocated via MaLo ID to balancing groups / balancing sub-groups (and thus to BGMs) and networks	Since October 2022, approx. 10,000 allocations have been uploaded by the network operators in THE's Customer Portal
Processing and presentation of load profile data sent by the network operators to THE	<ul style="list-style-type: none"> Since December 2022, THE has received and processed more than 400,000 records THE receives and processes more than 2,500 data sets a day
